Product Introduction

One touch. That's all it takes to register time & attendance with ZK Software's T4 biometric reader. Fast, reliable performance combined with affordability gives ZK standalone readers the competitive edge.

ZK's biometric readers use the fastest fingerprint-matching algorithm in the industry, offering unparalleled precision and speed at less than half the cost of competing vendors. Enrolling users is fast and easy, since most all our readers have a user-friendly keypad and display. Managing our readers is also simple. All our readers are easily accessed through a TCP/IP or serial port, with the ability to automatically update and synchronize when networked together.

Software developers can add their own "touch" by combining their customized software with our readers to meet specific customer needs. The results? More sales at greater margin. Now, that's performance!

Contact ZK Software today for a demonstration of our top-quality standalone biometric readers and how they can provide an affordable, feature-rich time & attendance terminal that's just right for your customers. After you try our T4, B1, and A10 readers, we think you'll agree that a touch of performance is what keeps ZK Software the industry leader!

Put the power of innovation to work for you!
ZK Software – your single source for superior, affordable, and reliable biometric and RFID readers.

Quick Facts

- Rugged ZK Optical Sensor
- 1-touch, 1-second user recognition
- Stores 1500 templates and 30000 transaction
- Reads Fingerprint and/or PINs
- Built in Serial and Ethernet ports
- Multi Language Support
- Built in Bell scheduling
- Real time 1-touch data export to 3rd party hosted & non-hosted applications

- Audio-Visual indications for acceptance and rejection of valid/invalid fingers
- SDK available for OEM customers and software developers

Technical Specification

Templates:	:	1500
Transaction Storage	:	50000
Matching	:	1:N up to 1500 templates
Verification:	:	≤1 second
Identification:	:	≤2 seconds
Enrollment time:	:	≤5 seconds
FAR	:	<=0.0001%
FRR	:	<=1%
LCD	:	2.75 X 1.5 inch Graphic LCD Display
Oper. Temp:	:	32°-105°F (0°-42°C)
Port	:	RS 232/RS 485, Ethernet 10/100
Oper. Voltage:	:	5V DC
Dimensions	:	200 X 136 X 50(mm)
