Fingerprint/Password based Authentication Solutions

Product name: AVI TEC

Product Category: Biometric Solutions

Product Sub-category: Time Attendance Systems

Model Number: AVI-FTA-508

The AVI-FTA-508 is an Internet-ready and feature-rich Time & Attendance system with an elegant design case. The product has been updated regularly to meet the changing security and record-keeping requirements of diverse industries. The latest version of the product's algorithms gives the unit systematic dependability with an improved accuracy level. The fingerprint identification has been improved with an update to 3000 templates per second. This product is ideal for establishments such as hotels, hospitals, factories, offices and banks.

Since the AVI-FTA-508 Time and Attendance System is extremely easy to install and a breeze to operate, your organization will be up and running in no time with the added convenience and functionality the system provides. Simply give us a call or write to us through our contact page and we will be happy to demonstrate the product's impressive features in real time in your workplace. The AVI-FTA-508 is not only stylish in look and design but also in durability. The impressive list of features will surely make a significant difference in the way your organization gathers, processes and maintains mission-critical data.

FEATURES

- Built in 32bit fingerprint embedded standalone module it is easy to integrate with various systems .
- Sensor window cotton improving image quality, accepts dry, wet fingers.
- CMOS automated exposure and intelligent compensation improved image quality.
- Adjusting image distortion, assure fingerprint matching consistency.
- Accept ODM or OEM, providing system analysis, mould-making, circuit design, producing- assembly, package design, etc, linear service.

AVI-TEC
POWER WITH NO BOUNDARIES

Authorized Reseller:

Technical Specifications

Size	185`L~123W~43(H)mm
User Capacity	1500 / 2500
Transaction Storage	50000
Algorithm version	2005 Version new algorithm
Software Platform	Embedded Linux O/S
Communications	RS232, RS485, TCP/ IP (UDP Protocol)
Power	5V 2A POE: Power Over Ethernet (Optional)
Identification time	<=2s
FAR	<= 0.0001%
FRR	<= 1%
Operating Temperature	0 C- 45C
Operating Humidity	20%-80%
Sensor	Error free Optical Sensor
Language	Arabic, English ,other Languages Optional: Simple access control (Electro control Directness relay output 3A/12VDC)
