## World class Employee Time Attendance Solution

Product name: AVI TEC

Product Category: Biometric Solutions

Product Sub-category: Time Attendance Systems

Model Number: AVI-FTA-ID-511

The AVI-FTA-ID-511 is a time attendance device designed especially for professional environments. It has an attractive design with touch keys making it extremely user friendly and easy to use. The product is fully TCP/IP enabled which allows you to access the unit from anywhere in the world using an Internet browser. The built-in USB connectivity, which does not require you to install any external cards on your PC, makes it possible for you to connect it with a desktop, laptop, or even your local area network (LAN). Exporting the data to your work station is an effortless exercise and takes less than two minutes. Call us or write to us and we will be honored to arrange a product demonstration for you in your office or factory so that you can see for yourself how amazingly versatile the 511 is and how quickly you can automate one of your most important and routine tasks once the 511 is installed.
